A Fortunate Union- Behavior strategies (DVD)

Eden II

The successful use of applied behavior analysis in the education of children with Autism has been well documented in the literature (Lovaas, 1987; Harris et al., 1991; Fenske, et al., 1985). The Eden II programs has been educating children with autism within a behavioral model since 1976. To meet the on-going training needs of educators and parents, Eden II programs and Digital Vista have collaborated to integrate a proven treatment curriculum with modern, interactive multimedia. We believe this form of instruction will more effectively convey the material via visual, audio, and interactive methodologies. We hope you will find success in utilizing this courseware.

Asperger Syndrome and Employment (DVD)

Dubin, N.

People with Asperger Syndrome (AS) can find it difficult to work in an environment that involves socialization with colleagues or a lack of routine. However, Asperger Syndrome and Employment shows how success in the workplace is possible with perseverance and with the right supports and strategies in place. Nick Dubin discusses his own experiences at work and highlights challenges common among employees with AS. The DVD also includes interviews with Nick's former employers who assess his strengths and weaknesses, as well as commentary from Gail Hawkins (author of the JKP book How to Find Work that Works for People with Asperger Syndrome) who relates Nick's experiences to those she sees in her work with people with AS. Dubin advises how to succeed in the workplace and offers practical advice on finding employment in line with your interests, making use of job coaches, developing self-esteem, using your strengths and being honest to yourself and others about your weaknesses. Asperger Syndrome and Employment is a valuable source of information and inspiration for teenagers and adults with AS, as well as anyone working with someone with AS.

Classroom Suite (DVD)

Intellitools

Classroom Suite is a unique software intervention tool developed upon the principles of Universal Design for Learning (UDL) that combines two educational paradigms—systematic, explicit instruction and flexible creativity tools. Teachers have control over specific learning objectives, allowing differentiated instruction for individuals or groups to help students in grades PreK-5 achieve mastery in reading, writing, and mathematics.

Engineering the Classroom with Visual Strategies (DVD)

Hodgdon, L.

This DVD is a summary and explanation of procedures that were followed to set up a classroom with visual strategies. Linda Hodgdon describes the procedures that were followed during her consultation with a classroom staff.

Where do you begin? It's a frequently asked question. Once we decide that using visual strategies makes sense for a group of students in a classroom, it can become instantly overwhelming. There are so many ways to use visual strategies, so . . . where do you begin???

Here is what we did...

This DVD program is an informal explanation of the procedures that were followed to set up a new classroom. Additional staff and new students were being added to the room. The teacher's goal: Set up the whole classroom environment with visual supports. These procedures are helpful to plan classroom strategies at the beginning of the year or they can be implemented any time during the school year.

MORE THAN WORDS (VHS)

Sussman, F.

More Than Word – The Hanen Program® for Parents of Children with Autism Spectrum Disorder (ASD) is a family-focused, social pragmatic intervention program for young children with ASD. More Than Words was adapted from It Takes Two to Talk® – The Hanen Program® for Parents of Children with Language Delays in order to meet the needs of children on the autism spectrum and their parents. The goal of More Than Words, like that of It Takes Two to Talk, is to empower parents to become the primary facilitator of their child's communication and language development, thereby maximizing the child's opportunities to develop communication skills in everyday situations. More Than Words addresses the needs of both nonverbal and verbal children with ASD under the age of five.

Social Skills Builder-The birthday party (DVD)

The Birthday Party CD, unlike any other product on the market, was developed for the teaching of social skills through its innovative use of interactive video sequences. Children on the screen act out social emotions, appropriate body space, and voice volume step by step

to teach basic social understanding and behavioral skills. These lessons target children with a cognitive age of 4-8 years.

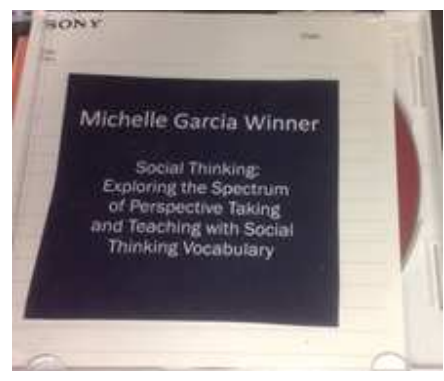

Social Thinking Across the Home and School Day (VHS)

Garcia Winner, M.

The set includes two video tapes. The first is a two-hour workshop Michelle presents to help define the ILAUGH framework, which is a six point model of social cognition. The focus of this workshop is the fact that students with social cognitive deficits express these deficits not only during social interaction but in the classroom as well. They may have difficulty working as part of a group, interpreting and producing abstract language and organizational challenges. Strategies will be provided for assisting these children across their home and school day.

The second video demonstrates Michelle working with elementary and high school aged children in group and individual lessons to facilitate social thinking and related skills.

You are a Social Detective (CD)

Social Skill Builder

Great for both home and school! Designed for cross system compatibility, one CD will work for BOTH Mac & PC. Refer to the details section below for specifications.

You Are a Social Detective! Interactive CD Game presents the social thinking concepts introduced in our You Are a Social Detective! book. The book is presented in the first chapter of the game, and then it kicks into interactive computer game with our social detective walking the students through each of the levels. There is no need to purchase the book because it is included in the CD, unless you want it in paper form.

Our new learning software CD, You are a Social Detective, is a dynamic combination of Social Skill Builder's interactive video modeling style with the characters, vocabulary and process of the book You are a Social Detective by Social Thinking® founder Michelle Garcia Winner and co-author Pamela Crooke. Students learn to use their social "tools" -- eyes, ears and brain - - to understand the thoughts and feelings of others. They learn to make a smart guess about what someone will do next, and how their own actions affect consequences and outcomes.
